

Quarterly Statement

Investor Report Q1 2023

FUND OVERVIEW

Alkhabeer Diversified Income Traded Fund (“the Fund”) is a closed-ended Shari’a-compliant investment traded fund established in accordance with the applicable laws and regulations of the Kingdom of Saudi Arabia and regulated by the Capital Market Authority (CMA). The Fund’s investment objective is to generate periodic income to investors by investing in Shari’a-compliant income generating assets. The Fund Manager “Alkhabeer Capital” plans to invest in Sukuk, trade finance transactions, leasing transactions, income funds and Murabaha transactions, either directly or through investment funds.

TRACKING ERROR ⁶	28.86	28.86	19.84	N/A	N/A
BETA ⁷	2.41	2.41	2.65	N/A	N/A
ALPHA ⁸	0.33	0.33	-0.29	N/A	N/A
INFORMATION RATIO ⁹	1.16	1.16	-1.49	N/A	N/A

1. For the period from 31 December 2022 to 30 March 2023.

2. For the period from 31 December 2022 to 30 March 2023.

3. For the period from 30 March 2022 to 30 March 2023.

4. Standard Deviation is a measure of risk. It is calculated as any volatility in returns over a period of time. The lower the volatility, the more homogeneous the set of returns.

5. Sharpe Ratio is a risk-adjusted performance measure. It is calculated as the difference as the Fund Manager excess return over the risk-free rate, divided by the Standard Deviation. The greater a portfolio's Sharpe Ratio, the better its risk-adjusted performance.

6. Tracking Error is a measure of risks. It is calculated as the Standard Deviation between the Fund Manager's return and the Benchmark's return. The lower the Tracking Error, the lower the Fund Manager deviates from the Benchmark.

7. Beta is a measure of the average historical sensitivity of the Fund's returns compared to market returns. It is calculated by using the covariance of the Fund and the market on the variance of the market.

8. Alpha measures any excess return achieved by the Fund compared to the performance of the index.

9. Information Ratio is a risk-adjusted performance measure. It is calculated as the active return of the Fund Manager, divided by its tracking error. The higher the Information ratio, the higher the Fund Manager ability to generate excess returns per Unit of excess risk. Knowing that the performance and risk parameters were calculated based on the Unit's trading prices in the market.

FUND HIGHLIGHTS AND ANY FUNDAMENTAL OR NON-FUNDAMENTAL CHANGES AFFECTING THE PERFORMANCE OF THE FUND

There were no fundamental or non-fundamental developments or changes affecting the performance of the Fund.

OVERVIEW OF THE LEASING, TRADE FINANCE AND SUKUK INDUSTRIES

LEASING INDUSTRY OVERVIEW

- The steady rise in short-term interest rates and stubborn inflationary pressures do not seem to have suppressed demand for productive equipment by US businesses.
- According to the 2023 equipment outlook from US Equipment Leasing and Finance Association (ELFA), the top five hottest equipment sectors in 2023 include: construction, machine tools, medical equipment, trucks/trailers, and hi-tech/computers. Notably, construction equipment was the big winner of the survey, ranking first for the 10th consecutive year. The outlook for construction remains good based on pent-up demand for highway, commercial and civil projects.

- The Equipment Leasing and Finance Association's (ELFA) Monthly Leasing and Finance Index (MLFI-25), which reports economic activity from twenty-five companies representing a cross section of the USD 1 trillion equipment finance sector, showed their overall new business volume for February 2023 was USD 7.9 billion, up 11% compared to new business volume in February 2022.

TRADE FINANCE INDUSTRY OVERVIEW

- According to United Nations Conference on Trade and Development (UNCTAD), the global trade reached a record USD 32 trillion in 2022 - trade in goods was about USD 25 trillion (an increase of about 10% from 2021) and trade in services totaled ~USD 7 trillion (an increase of ~15% YoY).
- The record levels were largely due to robust growth in the first half of 2022; however, due to deteriorating economic conditions and rising uncertainties, growth turned negative in H2 2022 and is expected to stagnate in the first half of 2023.
- Meanwhile, the World Bank links the global trade finance gap to the pool of available liquidity compared to the optimal amount required by companies, which stood at USD 1.5 trillion in 2020 for developing countries. The shortfall worsened with the spread of the pandemic, and the Asian Development Bank expects the gap in trade finance transactions to increase to at least USD 2 trillion in 2022.

SUKUK INDUSTRY OVERVIEW

- As per Fitch Ratings, global outstanding Sukuk reached USD 765.3 billion in 2022, 7.6% higher than a year ago. The main issuers remain the sovereigns and multilaterals.
- According to Refinitiv, global Sukuk issuance exceeded market expectations, reaching USD 193.9 billion in 2022 (USD 144.4 billion of new issuances and the remainder being new issuances), despite a record number of consecutive rate hikes during 2022. 2022 was the second highest year after issuance reached USD 196.5 billion in 2021.
- In terms of performance, further to the worst year in decades in global Sukuk markets in 2022, the Sukuk market has slightly recovered until March 2023. The Dow Jones Sukuk Index (ex-reinvestment) gained about 2.1% YTD, while the Dow Jones index gained 1.2%, and the S&P GCC Sukuk Index was up 1.2% YTD.
